

ROBIN SAMPLE

OPERATIONS & AUTOMATION LEAD

+1 555 0100 | robin@example.com | Austin, TX | [LinkedIn](#) | [Portfolio](#)

Operations lead with 7 years turning manual back-office work into automated systems. At Acme Analytics, owned billing, support, and reporting for a 40-person B2B SaaS company and automated most of it with Zapier, Python, and LLM-based tools.

WORK EXPERIENCE

Operations Manager | Acme Analytics - B2B SaaS | 2021-Present

- Automated billing and collections end to end (invoicing, renewals, dunning), cutting the monthly close from 3 days to 4 hours.
- Built the support function from zero: SLAs, a 120-article knowledge base, and an LLM triage bot that resolves 45% of tickets without a human.
- Built 15 Looker Studio dashboards for leadership, replacing weekly spreadsheet reports.
- Ran onboarding for 60+ enterprise customers, working with Sales and Engineering on each rollout.

Operations Analyst | Initech - Logistics | 2018-2021

- Rebuilt the delivery scheduling process in Google Sheets and Apps Script, saving the dispatch team 10 hours a week.
- Managed relationships with 25 vendors, including contract renewals and monthly performance reviews.

EDUCATION

- B.A. Economics | University of Texas at Austin | 2018

SKILLS

- **Automation:** Zapier, Make, Google Apps Script, REST APIs, webhooks, Python (basic)
- **AI:** OpenAI API, prompt engineering, LLM support bots
- **Data:** SQL, Looker Studio, Excel
- **Operations:** billing & collections, support operations, SLAs, vendor management, customer onboarding
